

Life in the Rainforest

Fact Sheet

Tarantulas

There are two types of tarantulas; Terrestrial tarantulas live in burrows in the ground. Arboreal tarantulas live in holes in trees.

Most tarantulas have 8 eyes; 4 face forward, 1 faces left, 1 faces right and 2 face backwards.

All spiders known to man are venomous, all are carnivores.

Arboreal Tarantula.

Terrestrial Tarantula.

Tarantula Fang
